### SENSATIONAL STREET ENCOUNTER.

## CONDUCTOR MERTZ.

ONE OF THE MOST POPULAR I. C. CONDUCTORS RESIGNS.

Conductor F. G. Mertz, one of the oldest conductors in the Illinois Central railroad, has tendered his resignation. His run is on the St. Louis and Paducah division.

Mr. Mertz has been in the employ of the railroad for the past twenty years and no conductor on the whole system was more popular. The Eldorado and Pinckneyville, St. Louis and Paducah, and the St. Louis and Great Springs runs have been "chain gang-ed." This arrangement throws the conductors into this city alternately. Mr. Mertz was of the opinion that he would not be able to stand the latter hence his resignation. He may go to another road or may be given another run.

The conductors who will have the runs under the new order of things are: S. W. Reed, C. H. Blaney, J. C. Youngblood and A. T. Melvin.

## TROUBLE AT DANVILLE.

CAPT. DICK MORROW ASSAULTED BY AN L. & N. AGENT.

Capt. Dick Morrow, who has charge of the Danville wharfboat, formerly of Paducah, but now of Danville, Tenn., had a difficulty at Danville a day or two ago with L. W. Halford, agent for the L. & N. railroad, and was cut across the forehead, throat and cheek with a knife by Halford. From reports the altercation arose over revenue stamps, and Halford did the cutting without provocation.

Charlie Morrow, Capt. Morrow's son, subsequently shot at Halford five times, and Halford then procured a pistol and went after him, but was restrained. Capt. Morrow's wounds are not thought to be serious and Halford was not struck by any of the shots fired by young Morrow.

## PAINFULLY BURNED.

MISS SOPHIE MEYERS BURNED WITH GASOLINE AT MARTIN SMITH'S.

Miss Sophie Meyers, who lives at the residence of Mr. Martin Smith, the well known barber at Seventh and Clay streets, was painfully burned this morning shortly before noon. She had been using gasoline for cleaning purposes and had attempted to wash the pan, containing the gasoline, out with hot water. The two fluids would not mix and when the hot water was poured into the pan the gasoline was forced out. The gasoline spread over the stove and ignited burning the young lady's hands, arms and neck. The injuries, although painful are not of a serious nature. Several articles in the kitchen were slightly burned but they were speedily extinguished. Dr. B. B. Griffith attended her.

The latter, however, will be made a special attraction, and thousands will no doubt go to see it.
